

AD-1 Tension Packer

Compact, Economical, Retrievable
Production Packer

SOLUTIONS

- Waterflood Applications
- Production & Treating Operations
- Ideal for Shallow Wells

SPECIFICATIONS

- AD-1 is for Casing Sizes 4.5"-7.63"
- AD-1 is for Tubing Sizes 2 3/8"-3.5"

ADVANTAGES

- Rugged Rocker Type Slips
- Bore through the Packer is Larger than Drift
- Simple & Low-Cost Packer for Fluid Injection
- Higher Retrievability Utilizing Three Release Methods
- One-Piece Packing Element
- Alternative Shear Release

The AD-1 Tension Packer is a compact, economical, retrievable packer.

Primarily used in waterflood applications, this packer can also be used for production and/or treating operations. It is used where a set-down packer is impractical. Since the AD-1 is tension set, it is ideally suited for shallow wells where set-down weight is not available.
